

Designer Template - Olympus

Designer: _____

Date Submitted: _____

Name of Design (mandatory): _____

Size of Super Pegs _____

Wire Gauge _____

Wire Length _____

Beads used (size & quantity): _____

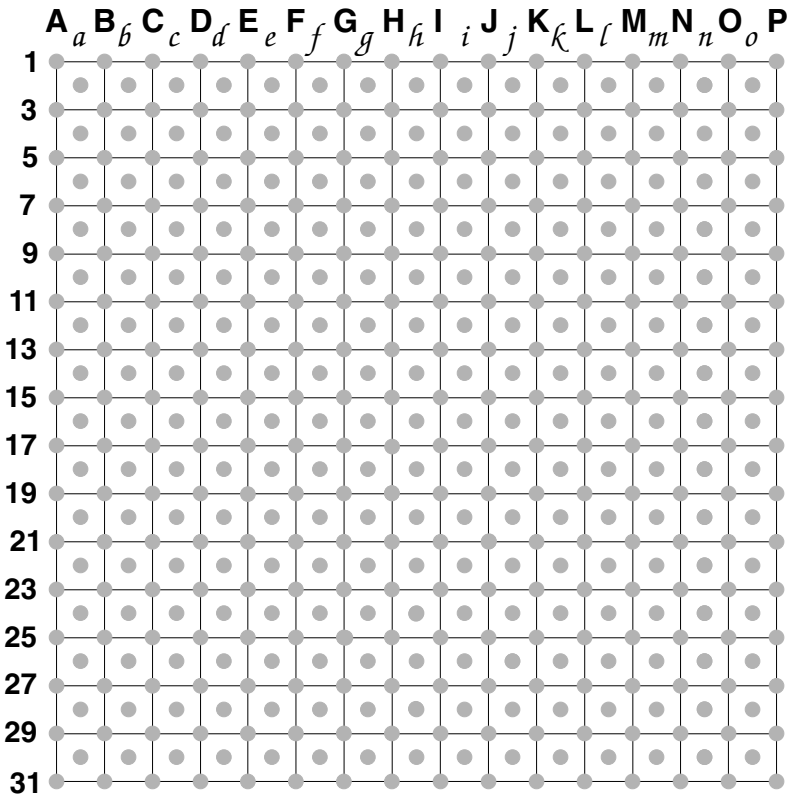

Findings used (size & quantity): _____

Sample for EACH design attached? _____ (Please use Artistic Wire (green, aqua, dark blue color only). Need sample to be identical to what comes off jig (wire tail can be cut). If manipulation of the wire occurs after it is removed from the jig (example: adding a wire spiral), then I need a sample of that as well. First sample has to fit on the jig around the pegs so I can take a photo and put in numbered arrows. Place wire sample in zip lock bag and staple it upside down (put staples in the BOTTOM of the bag - not the end that zips) to the top front of this page. Again, we need sample of piece as it looks when it is removed from the jig, and a second sample if a major change is made after it is removed from the jig.

Description of finished piece (type such as necklace, color & types of beads used, color of wire):

Directions:

Drawing with Numbered Arrows
 (Please draw design, showing starting point and numbered arrows)
